## Region 2 Affiliate Report

In less than a month, many of us will be in beautiful Montréal, Québec. I hope you are registered, made your flight arrangement, booked the hotel room and remembered to get your passport. Long-term projected weather forecasts are for highs in the low 60°s during the day and lows in the mid-30°s (Fahrenheit) at night. The autumn color change will be in its final stage. Pack accordingly and bring your camera!

Visit [www.aspe.org](http://www.aspe.org) and download the Technical Symposium program guide. Be sure to read up on the course descriptions and choose those that fit your needs best.

As your Region 2 Affiliate, I think it is important to mention the manufacturers and organizations that are helping to support ASPE. Without them, the additional costs of putting on a Technical Symposium would be nearly prohibitive. Be sure to thank them during the product show and ask for lunch-n-learn presentations from those that you believe your colleagues who can't make it to Montréal need to know about.

**LEAD-FREE.  
WORRY-FREE.  
HASSLE-FREE.**  
*4 YEARS EARLY.*

With new national lead-free legislation taking effect in 2014, there's been a lot of talk about making the switch. Here's the truth: T&S was the first fixture, faucet and fitting manufacturer to convert its entire line to lead-free alloys back in 2010.

So when you purchase a T&S faucet today, you're already lead-free compliant. No worries. No hassle.

Visit [tsbrass.com/literature](http://tsbrass.com/literature) to download a free brochure about our lead-free products, or contact your local T&S rep for more information.
