From the President:

A special thank you to Craig McDowell with Omar McDowell company for organizing the Annual Clambake Social at the Cleveland Yachting Club.

The October Technical Session will be on the topic; Underground Cast Iron Installation, presented by Brian Black CISIPI Territory Manager.

The Wednesday, October 14, 2026, Dinner Meeting will be held at Independence Civic Center located at 6363 Selig Drive, Independence, Ohio 44131.

5:00 – 5:30	Chapter Board Meeting
5:30 – 6:00	Sign-In / Meet and Greet
6:00 – 6:30	Dinner
6:30 – 7:30	Presentation
7:30 – 8:00	Q & A

ASPE Cleveland is CASHLESS and now accepts PayPal, Venmo, or Credit Card! Your electronic payment will confirm your RSVP! No walk-ins will be permitted. Please click [HERE](#) by Noon on October 12, 2026. Please support your local chapter by attending.

Registration is now OPEN! ASPE 2026 Convention & Expo is taking place in Oklahoma City, Oklahoma from October 8-14, 2026. Register at <https://expo.aspe.org/>.

I encourage all members—from seasoned engineers to our ASPE Young Professionals (AYP) and Women of ASPE (WOA)—to get involved. Please join us at our next chapter meeting to experience the camaraderie and educational opportunities our chapter has to offer.

Let us know if there are any specific topics you would like to see our chapter sponsor. We are always looking for new ideas. Remember, without membership and participation there is no local chapter.

Regards,
Joe Deucher, C.P.D.
President, ASPE Cleveland Chapter

**2026 - 2027 ASPE Meeting/Plumbing Class Schedule
October 2026**

<u>Date – Time – Place</u>	<u>Topic</u>	<u>Speaker(s)</u>	<u>Exhibitors</u>
September 9, 2026 – 6:00 PM Cleveland Yachting Club Cost: \$50	Clam Bake Topic – Social Event ASPE Cleveland Chapter	N/A	N/A
October 14, 2026 – 6:00 PM Independence Civic Center Cost: \$20	Underground Cast Iron Installation	Brian Black CISPI Territory Manager	CISPI
November 11, 2026 Independence Civic Center Cost: \$20	Emergency Water Supplies for Healthcare	Andy Paulsen Water Control Corporation	Rep Source
December 9, 2026	TBD	ZURN	BWA South
January 13, 2027	Salt-free Water Softening	Jonny Secombe Aqua-Rex LLC	Aqua-Rex LLC
February 10, 2027	TBD	TBD

April 14, 2027	TBD	TBD	
May 12, 2027	TBD	TBD	

**2026 - 2027 ASPE Meeting/Plumbing Class Schedule
October 2026**

The above is the meeting/plumbing class schedule for the 2026-2027 ASPE year. Updated information will appear in subsequent newsletter issues. All meetings will be at the Independence Civic Center, 6363 Selig Drive, Independence OH 44131 unless otherwise indicated. The meeting/plumbing class, including dinner, is \$20.00 unless noted otherwise. Reservations are required. A mini product show will be held before each meeting/plumbing class highlighting some of the materials discussed in class or products that will assist the engineer in understanding what they are designing or specifying.

All plumbing classes will qualify for 0.1CEU hours and will assist in preparation for the ASPE CPD examination.

The following times will be enforced as strictly as possible.

Make your reservations a minimum of two days before the meeting/class and try to be on time.

Evening Seminars:

- | | |
|---|----------------|
| • Chapter Board Meeting | 5:00 - 5:30 pm |
| • Sign-in / Meet and Greet / Vendor Display | 5:00 - 6:00 pm |
| • Dinner | 6:00 - 6:30 pm |
| • Presentation | 6:30 - 7:30 pm |
| • Q & A / Vendor Product Display | 7:30 - 8:00 pm |

Lunchtime Seminars:

- | | |
|--|--|
| • Mini Product Show | 11:30 - 11:45 am |
| • Sign-In / Meet and Greet / Vendor Displays | 11:45 - 12:00 pm |
| • Lunch | 12:00 - 12:30 pm (Seminar to begin during lunch) |
| • Presentation | 12:00 - 1:00pm |
| • Q & A / Vendor Display | 1:00 - 1:30pm |

PROUDLY PROVIDING THERMOSTATIC BALANCING SOLUTIONS FOR OVER 10 YEARS

Hot Water Recirculation

In 2012, CircuitSolver® was developed to conquer the challenges inherent to conventional manual balancing valves. As the market's first **thermostatic balancing valves** used for domestic hot water recirculation, CircuitSolver® balances a system based solely on temperature as opposed to pressure or flow to guarantee hot water at **every fixture**. Dynamically balancing a system, CircuitSolver® ultimately **ended complaints** about the lack of hot water, and eliminated balancing processes and callbacks.

Cold Water Recirculation

Last year, we implemented our thermal actuator technology into the CircuitSolver® Union Cold Water balancing valves. These valves are installed in domestic Cold Water recirculation systems to mitigate the risk of Legionella and other bacterial growth. Cold water recirculation is becoming more prominent in hospitals to reduce water stagnation and ensure residual chlorine is distributed but can be beneficial to any commercial building that could experience periods of low flow or non-use.

Annual Medical Gas Inspections

Medpipe's annual medical gas inspections meet the requirements of the following organizations:

- Centers for Medicare and Medicaid Services (CMS)
- Joint Commission (JCAHO)
- DNV
- State Health Departments
- National Fire Protection Association (NFPA)

Our computerized medical gas testing and maintenance tracking system is designed to streamline compliance and improve safety in healthcare facilities. This advanced system compiles testing and repair results, ensuring every component meets regulatory standards. With built-in inventory management, facilities gain full visibility into the status of their medical gas infrastructure. These customized reporting capabilities support better code compliance by providing clear, auditable records and proactive maintenance scheduling.

Customer Tailored Programs

We work with each customer individually to design a program specific to their facility that meets all requirements and assures continued compliance. Reports can be provided in both paper and digital format.

Medical Gas Construction Verifications

As healthcare organizations strive to maintain excellence in the changing market, renovations are vital to their success. When construction projects call for medical gas systems to be installed or upgraded, a third-party verification (certification) is required.

The NFPA and the ASSE (American Society of Sanitary Engineering) provide guidelines for this testing to ensure that the equipment and installation meet the medical gas codes and standards. We have an experienced team of verifiers who maintain ASSE credentials and keep current with applicable codes.

We utilize state-of-the-art portable analyzers to perform testing on the newly installed medical gas components, ensuring that the project meets all design and installation criteria prescribed by the NFPA.

Construction Certification Services

Source Equipment Preventative Maintenance & Inspections

Medpipe delivers comprehensive preventive maintenance and inspections of mechanical Central Supply Systems, including medical air and medical vacuum systems. Our highly trained technicians perform detailed assessments to ensure that your equipment operates at peak efficiency while adhering to strict safety and compliance standards. Medpipe technicians receive factory training on many manufacturers' equipment. Proactive maintenance helps minimize failures, extend the lifespan of critical systems, and maintain uninterrupted service, which is essential for patient care.

Medpipe offers technical support and is available to provide service on all major brands.

MEDPIPE

Medical Gas Service

At Medpipe, we understand the critical nature of medical gas systems, which is why we offer comprehensive 24/7 emergency call-out services to ensure uninterrupted patient care. Our expert technicians are equipped to handle a wide range of urgent needs, including loss of gas or vacuum, alarm events, and leaking/malfunctioning outlets. Whether it's a scheduled repair or a middle-of-the-night emergency, Medpipe is committed to delivering fast, reliable support whenever and wherever needed.

Boom Inspections, Maintenance, and Service

NFPA 99 stipulates that non-stationary booms and articulating assemblies must be tested every 18 months or at a duration determined by a risk assessment. Boom manufacturers also recommend complete internal hose changeouts at specified intervals, mostly averaging 10 years. Medpipe offers a comprehensive boom inspection service to help customers meet these requirements and recommendations. Our program includes leak checking, visual inspection of interior hoses and fittings, function checks of Boom articulation and braking, outlet/inlet performance verification, and checks of electrical outlets and data ports. This ensures that your Booms provide easy, reliable access to the utilities housed on these fixtures.

Medical Gas Systems Training

Medpipe's classroom training solutions empower healthcare professionals with the knowledge and skills needed to safely and effectively manage and maintain their medical gas systems. Our courses cover system operation, maintenance protocols, and compliance standards allowing participants to gain practical, hands-on experience. Taught by an ASSE 6050-certified instructor, our sessions are tailored to the medical gas systems in your specific facility so that your team builds confidence working with the equipment that they are responsible for maintaining.

Other Testing Services

Medpipe offers a range of other testing services for healthcare facilities such as environmental monitoring of hazardous workplace chemicals, air exchange testing, advanced leak detection, and more.

Replacing Your Water Heater Every Few Years is Not Our Business Plan

Conquest[®] condensing, gas-fired water heaters are constructed from AquaPLEX[®] duplex stainless steel so they're corrosion-resistant in potable water at any temperature. Available in 199-1000 MBH, Conquest provides even more BTUs in small spaces and fits through a standard 36-inch doorway. With a thermal efficiency of up to 96%, long product life and a 15-year tank and heat exchanger warranty, you can't afford not to have one.

Call R.L. Deppmann or visit our Monday Morning Minutes blog at deppmann.com for information on PVI Water Heaters

800.784.8326 | pvi.com

Premier manufacturer of plumbing valves including PRV's, control valves, backflow preventers, butterfly valves, hydronic heating valves, quick-connect fittings, water pex, drainage, & pure water filtration.

Products for the fire protection, irrigation, and waterworks markets. Backflow preventers, control valves, in-building risers, pre-assembled valve station products.

Manufacturers of stainless steel drainage systems. Product ranges from standardized products to customized drains.

Plumbing flange design & manufacturing, wholesale distribution and installation services to the plumbing and mechanical piping Industry.

The world's leading provider of power tools, hand tools, and jobsite equipment.

The world's leading provider of flexible stainless steel connectors for natural/LP gas and fluid conveyance applications.

Manufacturers of eyewash and drench shower systems for commercial, hospital, and industrial uses.

An industry leader in manufacturing backflow prevention assemblies.

Manufacturer of oil/water separator, wastewater treatment systems products.

Offers plumbing hangers, straps, fasteners and other solutions for installation of plumbing products and pipe.

Enclosures for backflow preventers for outdoor installations.

Utility control system to promote safety for the student as well as the instructor in the science laboratory learning environment.

Leading manufacturer of plumbing tools and equipment.

MAPA Products has been a driving force in the manufacturing of rooftop supports.

Mueller Steam Specialty is the world's largest supplier of strainers and the number one provider of specialty products serving the valve industry.

Worldwide leader of bottled and pressure water coolers, providing point-of-use filtration equipment, drinking fountains, dehumidifiers and water pitcher systems.

Acid waste & high purity pipe and fitting systems.

Manufacturers of thermostatic mixing valves for building, point-of-use and emergency equipment, tub/shower systems with pressure balancing, thermostatic, or combination shower controls.

Leader in complete control solutions for radiant floor and baseboard heating systems, multi-stage boiler plants, and automatic snow melting systems.

Since 1950, Wal-Rich has been servicing the Plumbing Wholesaler with the finest in plumbing, heating, industrial and hardware specialties.

Flexible corrugated piping systems for natural gas and propane, as well as iron fittings. Applications include single & multiple-family residential as well as industrial and commercial buildings.

IntelliStation™:

**The smarter way
to deliver tempered water**

The Intelligent Water Mixing and Recirculation System

The IntelliStation™ provides unmatched levels of control over hot water delivery in commercial and institutional buildings.

- Precise digital control to $\pm 2^{\circ}\text{F}$
- Smart, easy-to-use controller with color touchscreen
- BAS integration
- Access to rich system data
- Integrated pump control for reliable, consistent temperatures
- Easy commissioning, repair, and management
- Sanitization mode allows for high temperature system purges
- Compliant with lead free legislation requirements

Spec with Confidence

PRECISELY ENGINEERED. REAL-WORLD TESTED.

Corzan® Material and Piping Solutions offer a complete tie-in to tap solution made up of Schedule 80 pipe & fittings, flanges, valves, and specialty adapter fittings including: MIP Threads x CPVC, FIP Threads x CPVC, Stub Out Elbows, and Male Sweat Adapters. Potable water systems designed with Corzan CPVC offer the best solution for reducing biofilm buildup and the growth of Legionella while being immune to degradation caused by standard disinfection procedures.

Performance Ratings

- Plenum rated for water distribution piping (ASTM E84-23)
- Conforms to NSF International Standards 61 and 14
- Withstands ANSI/ASHRAE Guideline 188 water treatment protocols
- Innately resistant to corrosion, pitting and scaling
- Resists biofilm that can lead to waterborne illness
- Pressure rated for temperatures up to 200°F

Diverse Applications

- Academic Buildings
- Multi-Family Housing
- Hotels
- Hospitals
- Data Centers
- Power Generation
- Wastewater Treatment Plants
- Chemical Processing Facilities

Reliability, Engineered In.

Specify with confidence. T&S delivers commercial plumbing solutions backed by exceptional quality, rigorous testing, industry certifications, and knowledgeable local representation.

QUICK HUB COUPLINGS:

NO NEED TO SEPARATE THE GASKET FROM THE SHIELD - INSTALLATION READY. JUST PUSH ON THE PIPE!

GRP TRENCH:

RIGID LIKE POLYMER CONCRETE BUT NOT FRAGILE. COMPETITORS MAXIMUM TEMPERATURE AT 140°F. OUR MAXIMUM TEMPERATURE AT 212°F!

TOP SET STRAINERS:

BRING THE STRAINER TO GRADE WITHOUT REMOVING THE GRATE AFTER THE CONCRETE POUR. JUST TURN THE THREE PHILLIPS HEAD SCREWS!

RPZ AND DC BACKFLOW:

ACCESS BOTH CHECKS FROM ONE ACCESS POINT. ALL STAINLESS STEEL BODY AND SHORTEST LAY LENGTH!

SIPHONIC DRAINAGE:

PIPES ARE FLUSHED AT HIGH VELOCITY AND SELF-CLEAN AS AIR EXITS THE SYSTEM. PIPE DIAMETER & MATERIALS ARE REDUCED BY HALF!

HDPE INTERCEPTORS:

LIFETIME WARRANTY. GENERIC CUT TO FIT ADS RISERS. PDI AND ASME APPROVED!
